Properties

Window handle

lockable, model 271X in L-shape, stainless steel matt black powder-coated (1.4301), spigot diameter 21.3 mm, length 145 mm, with 90° latching points and 7 mm square spindle, length protrudes by 30 mm (other lengths possible, 45° latching on request). Preassembled on an oval rose 71 x 33 mm, with lug diameter 10 mm, concealed screw fixing, screw hole spacing 43 mm, cover cap made of stainless steel matt black powder-coated (1.4301), wall thickness 1 mm. Delivery incl. fixing material. Integrated pushlock with 5 pin tumblers, lockable in all latched positions, the locking acts directly on the handle and blocks rotation of the handle. Test in accordance with RAL-RG 607/9. Different keys: each lock cylinder requires a separate key, 2 keys are supplied for each handle. Same key: all the lock cylinders can be locked with the same key.
