Properties

Pull handle

System 111 made of solid coloured high-quality matt polyamide, diameter 33 mm, with continuous, corrosion-proof steel insert, for one-sided and paired fixing on glass, wooden, PVC and metal doors (aluminium: 1 to 3 chamber, steel: 1 chamber profiles),

Endurance as a removable load 100 kg for wood and metal doors, 50 kg load change for doors made of synthetic material, with 2 fixing points, fixing outside the lock area or within the lock area, as well as fixing through the lock. Half round handle, with straight supports, for mounting on full leaf doors, in conjunction with BA5.0 for frame doors, fulfils the handle requirements of the guidelines of the German Federal Association of Accident Insurance Funds (Bundesverband der Unfallkassen e. V. - BUK) - safe distance from the closing edge 25 mm. Centre-to-centre 300 mm
