Tripple-roll hinge

for rebated doors with weight up to 100 kg.

Built-in door panel by milling and for recessed mounting on wood, steel and aluminium doorframe in the three-dimensionally adjustable retention element VX... and VZX...

Made of solid coloured high-quality matt polyamide with steel support made of galvanised 4 mm sheet steel and closed hinge roll, 100 mm height, hinge roll diameter 21 mm, twist-proof stainless steel pin and maintenance-free polyamide plain bearings. Matt polyamide caps for covering the cut recess and the screw fixing. Can be used on right- and left-hung doors.
